Unter "Was gibt's Neues" erhalten Sie einen Einblick in die Änderungen und neuen Funktionen, die in BIMteam integriert wurden.

What's new

Enhanced Perpendicular Dimensions: Improved Wall Selection and Visual Clarity in V2.12.0

We've improved the perpendicular dimensions by adding support for the selection of non-adjacent walls and generating measurements from them. The visual design for V2.12.0 is clearer, making it easier to see where measurements start and end. Additionally the dimensions are now auto-saved and will prevail if the viewer gets closed.
