

1.4.9.1 Projektbild hinzufügen

Sie benötigen dazu "Eigentümer"-Rechte.

In den Projekteinstellungen können Sie ein Projektbild hinzufügen, das dann in der Projektübersicht angezeigt wird.

The screenshot shows the BIMteam cadwork software interface. At the top, there is a navigation bar with the BIMteam logo, the word 'cadwork', and tabs for 'Projekte', 'Organisationen', and 'Geteilt'. Below the navigation bar is a sidebar with icons for 'Construction Project', 'Zuletzt geöffnet' (Last opened), 'Aktivität' (Activity), 'Teams', 'Aufgaben' (Tasks) with a count of 10, 'Gelöscht' (Deleted), and 'Einstellungen' (Settings), which is currently selected. The main content area displays a 'Construction Project' named 'Construction Project'. It includes buttons for 'Änderungen Speichern' (Save changes) and 'Projekt Löschen' (Delete project). Below these buttons are sections for 'Projektstatus' (Project status) set to 'Öffnen' (Open) and 'Koordinatensystem' (Coordinate system). The 'Projektbild' (Project image) section contains a 3D rendering of a construction site with a bridge and a road. This entire 'Projektbild' section is highlighted with a pink border. At the bottom, there is a section for 'Projektlogo' (Project logo) with a dropdown arrow.
