## 1.30 Wood user

## 1. Enable the option "Wood user":

Go to "Settings" ? "Options".

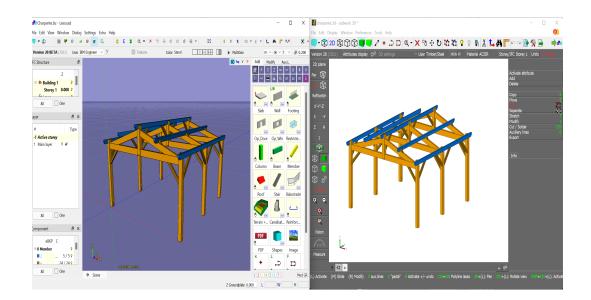

File Edit View Window	Dialog	Settings Extra Help
💙 🔹 👘 💌	@ 🔰	Language 🕨
Version 29 BETA (2022)	BIM M	Midpoint-Picking
IFC Structure	ė	Project data
	Z	Zeropoint
🖻 🏠 Bâtiment 1	Ŷ	Options

Then check the option "Wood user".

d Options ?	×

OK Cancel			

This option allows to communicate directly with cadwork 3d through an export, using the icon "export cadwork 3d" in the toolbar (on the top right).

## 2. Working with subgroups (as in cadwork 3d):

Go to "Window" ? "Subgroup".
