## 4.1.25 Lighting controls

The "Light setting" or "Lighting control" function is located in the toolbar:

If "Light setting" is activated, the lighting conditions are shown differently.

With R on the "Light setting" icon, the lighting control parameters can be called up and changed:

🚹 Lighting contro	ls ?	$\times$
Presets <ul> <li>Explorer</li> <li>Custom</li> </ul>		
Lights		
Headlight		0
Ambient Light		30 🌲
Sunlight		60 🜲
Sunlight		
Sun orientation	Sun ele	vation
-11.22 ♀ 4.84 ♥		
		<u>.</u>

The position of the sun (orientation + elevation) can be changed by moving the direction indicator with the mouse.
